Jon A. Myers  
Manager of Resources Planning  
East Bay Municipal Utility District  
P.O. Box 24055  
Oakland, CA 94623-1055

Dear Mr. Myers:

Thank you for your letter of October 20, 1995 regarding your comments on the October 12, 1995 workshop conducted by the CALFED Bay-Delta Program. We truly appreciate you taking the time to relay your thoughts on this aspect of our Program.

I apologize for the delay in responding to your letter. Staff has reviewed your comments and suggestions regarding demand management and water supply development and they are part of our public comment record.

The concerns expressed in your letter were considered as we prepared the revised materials for the December workshop mailing. The issue of demand management is included as an Action Category because of the multi-objective approach our Program is taking. Demand management elements need to be part of the mix and we need to go through the analysis and documentation of these measures. Please note that agency experts are currently reviewing this revised material for accuracy. The Program materials will be modified, as necessary, since they will form the basis for alternative development and evaluation.

Again, we appreciate your interest in the CALFED Bay-Delta Program and look forward to your continued involvement in this important effort.

Sincerely,

Lester A. Snow, Executive Director  
CALFED Bay-Delta Program
